THE PREMIUM COLLECTION

The Spectre Premium lighter, with its design based on the famous Ligne 2 model, is a monolithic metal with a delicate guilloche surface and a finish between matt and polished - wavering between light and shadow. This exquisite work of art demonstrates an exclusive technical prowess that makes it unique: a cylindrical tunnel with a polished inner wall runs through the middle of the lighter. The Spectre lighter is available with a choice of two finishes: black with a satin guilloche and palladium.

The Spectre Premium writing instrument, with its design based on the Ligne D model, rolls perfectly between the fingers. Its infinitely precise guilloche metal body and cap gives it an almost velvety feel. The Spectre Premium writing instruments are available in two finishes, black and palladium in three versions: fountain, rollerball or ballpoint pen.

The Spectre Premium lighters and writing instruments boast a compartment which provides a place to insert personal messages. Each piece of the collection is engraved with the 007 and Spectre logos and presented in a luxurious black lacquered gift box.

In reference to the first Spectre appearance in a Bond movie, the collection is limited to a number of 1963 per item, identified by a numbered metallic plate.

THE SPECTRE PREMIUM COLLECTOR GIFT BOX

The Spectre Premium Collector gift box makes for a truly exceptional gift. The polished black lacquered case has a majestic style and features a combination lock of the highest quality. It holds the fountain pen and ballpoint pen from the Spectre Collection, along with a small adaptable roller nib, as well as the guilloche lighter with its bullet holed cored.

Limited to an exclusive run of 150 gift boxes on both versions: palladium and black. The inside of the gift box features a numbered plate embossed with 007 and Spectre logos.
